To Celebrate Decade Journey of Ranganathan Society for Social Welfare & Library Development (RSSWLD) (2009 to 2019)

National Workshop on Research Writing, Research Tool, Blog Management & Library Automation with *koha*
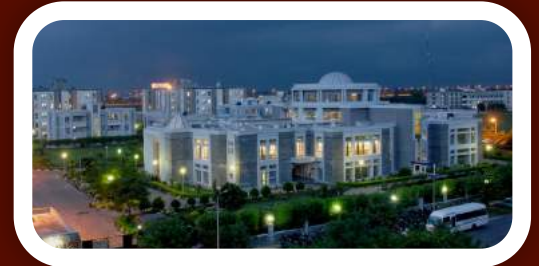

May 20-25, 2019

Organized by

Ranganathan Society for Social Welfare & Library Development (RSSWLD)

The workshop has been scheduled for 6 days in two parts to equip the professionals with different topics such as **research writing, reference management, plagiarism checking and blog writing, management of library data with library automation software koha and migration of data from one system to another**. Any participant can attend either 3 days workshop or even for all 6 days. workshop

Ranganathan Society for Social Welfare and Library Development (RSSWLD) came into existence in 2009. This NGO is also working as CSR implementation arm of BIMTECH. RSSWLD aims to facilitate the dissemination of knowledge and information at the grass root level by setting up libraries in the rural areas and Jails. The society's primary goal is intellectual development of the underprivileged sections of society so that they can avail competitive employment opportunities and lead a dignified social existence. The society is working in four main verticals: Rehabilitation program for Jail inmates, Community welfare, Social awareness and charity works, and Upliftment of Library and Library Professionals. RSSWLD have also started knowledge sharing services. Every year inter-disciplinary research workshops are organized for the scholars, especially for library professionals across the country. Society has organized several workshops and conferences of National and International level where more than 1200 LIS professional have been benefited. The society has established 11 Jail Libraries in various district jails of Uttar Pradesh and computerized 13 libraries, including the library of India Policy Foundation, New Delhi.

Apart from opening libraries, one very ambitious project for underprivileged adolescent rural girls "Protsahan Chiraya" has been started in village Neemka, District Gautam Budh Nagar in March 2016, where 150 rural girls have been adopted. Ranganathan Society is working for over all development of these girls by running various activities. It has launched its sixth batch successfully.

RSSWLD has completed a glorified journey of Ten years and in these ten year it has achieved many targets. To celebrate the decade journey of this NGO, it has been decided to conduct events throughout the year.

OBJECTIVES OF THE WORKSHOP

- To create awareness among professionals about research writing
- To prepare the professionals for dealing with different problems while managing the research and library data.
- To enable the professionals to face the technological challenges such as library automation, data migration etc.
- To strengthen the society and professionals.

Organized by: Ranganathan Society for Social Welfare & Library Development

WORKSHOP : 1 - RESEARCH WRITING

Research writing is the way of compiling research experience and work in proper manner to bring and reach the intellectual community with some new output in the form of any other document such as article, book chapter, books, reviews etc. Considering the researcher's difficulties, this workshop has been scheduled with the following tools to discuss in detail to understand the research process.

REFERENCE MANAGEMENT TOOL : MENDELEY

There are many tools to manage the references such as Zotero, Mendeley, EndNote etc. in which Mendeley has been chosen to discuss with the participants due to its simple features. The software Mendeley is best tool in reference management and provides 2 GB free space on cloud to manage the mendeley library with different resources.

ANTI-PLAGIARISM TOOL : TURNITIN

Turnitin is one the well-known anti plagiarism tool to check the similarity to check the intellectual stealing of the original content. The tool is purposefully taken for discussion in workshop for writing the quality research proposal.

INTELLECTUAL PROPERTY RIGHT : COPYRIGHT

Intellectual output involves original creation and it is very much important for any researcher to know the different aspects of copyright. The workshop will also cover the different types of IPR and one of the important component of IPR i.e. Copyright in detail.

BLOG WRITING WITH OPEN SOURCE CMS : WORDPRESS

Blog is the best tool to interact with outer world and also to organize your thought in effective way. To design the blog, the open source software WordPress will be discussed with hand on session in practical lab with practical demo on different aspects including webhosting and online blog management.

WORKSHOP 1 : CONTENT COVERAGE
